(Continued Questions)

What was one thing you took home from this past week's worship service?

Circle what you believe to be true about spiritual disciplines like Bible reading, prayer, and journaling:

- Spiritual disciplines will help you lose weight.
- Majority of American church goers are not consistent in them.
- They are necessary for our salvation.
- They make me a better Christ follower.
- They take too much time and are optional.
- In order to accomplish them you must make them a high value for your life.
- They are too demanding for the average person.
- People practicing spiritual discipline together are more successful.
- Pastor Dana is indifferent about people doing them.
- It is easy, and everyone should do it.
- Scripture does not support them.

**Looking Out to Others:**

Work on you group outreach project. Try to set at least one date if not two as to when you will accomplish your community act of sharing God's love. What are you doing?

**Looking into Myself (Private):**

How do you feel about your spiritual walk with God?

Awful

If you need to improve ask a person you know well to keep you accountable to improving your walk with God. It never hurts to try.
